

HANSEATIC LEAGUE • HUMAN CAPITAL DEPLOYMENT

# The **xHansa** Fellowship Application

A 24-month human capital deployment engine. 1,000 Xcitizens per cohort. 100 ten-person Pods. Nine Civilizational Fields. Not an accelerator. Not a course. A deployment.

● COHORT 3 • 2025 • APPLICATIONS OPEN

# Before You Begin

The xHansa Fellowship is a 24-month human capital deployment engine. It is not an educational program, an accelerator, or a job. It is a military-grade knowledge-deployment pipeline. Read this page carefully. Answer honestly. There are no right answers — only real ones. We observe behavior, not stated preference.

## Before you begin, you must understand:

- This is a 24-month commitment with no exit option before the cliff.
- The stipend is 500–1,200/month, needs-based. There is no salary. No benefits.
- Individual IP is subordinate to the League Commons (the Supremacy Clause).
- Quarterly Gates are binary: pass or fail. Failure triggers the Kill Switch (Pod dissolution within 48 hours).
- Month 24 is a hard cliff. The top 3% ("Keepers") transition to permanent payroll. The remaining 97% ("The Cycled") are severed with performance equity (36-month vesting).

**If any of these terms are unacceptable, this program is not for you.**

## WHAT YOU'LL NEED

|           |                                                                    |
|-----------|--------------------------------------------------------------------|
| TIME      | 20–30 minutes                                                      |
| SPACE     | A quiet space — some questions require you to think under pressure |
| OPTIONAL  | Links to anything you've built or operated                         |
| DOCUMENTS | Government ID, emergency contact information                       |

## SELECTION PROCESS

- 1 Application review** (within 21 days) — We read every application. You'll hear back regardless of outcome.
- 2 Civilizational Field Typing Assessment** (if shortlisted) — A behavioral assessment, not an interview. We observe how you operate under pressure.
- 3 Deployment Classification** — Based on the assessment, you're matched to a field and an Archetype.
- 4 Pod Formation** — A deterministic algorithm composes your 10-person Pod to maximize complementary strengths.
- 5 The Crucible** (8 weeks) — Onboarding. Neural reprogramming. If you survive, you deploy.
- 6 24-Month Deployment** — Q1 Pilot → Q2 Revenue → Q3 Expansion → Q4 Institutionalization → The Cliff.

**Selection criteria (in order):** Evidence of operating > Acceptance of commitment terms > Field alignment and deployable thinking > Self-awareness under pressure.

We do not select on credentials, university, or work history. We select on the evidence that you operate — and that you operate for something larger than yourself.

## SECTION 1

## Who You Are

Basic identification. This information is confidential and used solely for application processing.

Full Name \*

---

Email \*

Phone / WhatsApp \*

---

---

Location (City, Country) \*

Date of Birth \*

---

---

LinkedIn / Twitter / GitHub / Portfolio (any that apply)

---

## SECTION 2

## What You've Operated

We care less about where you've worked and more about what you've operated — built, run, fixed, deployed, or scaled. "Operated" means anything: a business, a supply chain, a community, a machine, a system, a team.

### 2.1 What is the most significant thing you have ever built or operated? \*

(200–400 words. Tell us what it was, why you built it, what happened, and what you learned. It doesn't matter if it succeeded or failed — it matters that you operated it.)

---

### 2.2 Link to it (if it exists online)

---

### 2.3 What are you operating right now?

(If nothing, tell us what you want to operate next.)

---

## SECTION 3

## The Commitment

The xHansa Fellowship is a 24-month deployment. These questions confirm you understand and accept the terms. Hesitation on any of these — even subtle hesitation — is a signal.

**3.1 The Fellowship requires a 24-month commitment with no exit option before the cliff. Early departure means total forfeiture of all equity and performance grants. Do you accept this? \***

- ☐ **Yes** — I accept the 24-month commitment
- ☐ I have questions about this
- ☐ No — I need an exit option

**3.2 The stipend is 500–1,200/month, needs-based. There is no salary and no benefits. You are a deployed operator, not an employee. Is this acceptable? \***

- ☐ **Yes**
- ☐ I need clarification on "needs-based"
- ☐ No — I require a salary

**3.3 Individual IP on ventures built during the program is subordinate to the League Commons (the shared IP pool). Breakthroughs are shared across the network. Do you accept the Supremacy Clause? \***

- ☐ **Yes** — I build for the Commons
- ☐ I have questions about IP
- ☐ No — I need to own my IP

**3.4 Quarterly Gates are binary (pass/fail). If your Pod misses a Gate, it is dissolved within 48 hours (the Kill Switch). There is no appeals process. Do you accept the Gate system? \***

- ☐ **Yes**
- ☐ I have questions
- ☐ No

**3.5 At Month 24 (the cliff), the top 3% of Xcitizens ("Keepers") transition to permanent payroll. The remaining 97% ("The Cycled") are severed with performance equity grants (36-month vesting). This is by design. Do you accept this outcome structure? \***

- ☐ **Yes** — I understand the League builds ventures, not careers
- ☐ I'd like to understand this better
- ☐ No — I need guaranteed employment

**3.6 The Crucible (the 8-week onboarding) involves "The Shock" and "The Wall" — systematic psychological destabilization and sustained cognitive exhaustion. Are you prepared for this? \***

- ☐ **Yes**
- ☐ I have questions about what this involves
- ☐ No

## SECTION 4

## The Nine Civilizational Fields

Every ProtoCo is commissioned against one of the Nine Civilizational Fields. We want to know which field calls to you. You express preferences; the needs of the commission come first.

### 4.1 Which of the Nine Civilizational Fields are you most drawn to? (Pick up to 3) \*

☐ Water Systems☐ Energy Systems☐ Food & Agriculture☐ Health & Mobility☐ Built Environment☐ Data & Intelligence☐ Logistics & Trade☐ Governance & Identity☐ Education & Human Capital

### 4.2 Why those? \*

(100–200 words)

### 4.3 If you were deployed into a 10-person Pod tomorrow to build a ProtoCo in your chosen field, what would you build? \*

(200–400 words. Be specific. We don't want a vision — we want a deployable concept.)

## SECTION 5

## The Six Archetypes

Pods are composed of six Archetypes: Pilot, Builder, Hustler, Operator, Tracker, and Comms. Your Archetype is determined by observed behavior under stress during the Crucible — not by what you pick here. But we want to know how you see yourself.

### 5.1 Which Archetype do you think you are? (Pick one) \*

☐**Pilot**

I set direction. I see the path before others do.

☐**Builder**

I construct. I turn ideas into working things.

☐**Hustler**

I close. I get the deal, the partner, the customer.

☐**Operator**

I maintain. I keep the system running when others are spent.

☐**Tracker**

I surveil. I find the data, the signal, the risk before it hits.

☐**Comms**

I translate. I make the complex legible to the people who need it.

### 5.2 Tell us about a time you operated in that role under pressure. \*

(150–300 words)

### 5.3 Which Archetype do you think you're weakest in?

## SECTION 6

## The Honest Part

### 6.1 What is the hardest thing you've ever done? \*

(Not the most impressive — the hardest.)

### 6.2 What happens to you under sustained cognitive exhaustion? \*

(Be honest. The Crucible will find out anyway.)

6.3 What is a belief you hold that most people disagree with? \*

6.4 Why xHansa? Why now? \*

(100–200 words)

6.5 If we don't accept you, what will you do? \*

(There's no wrong answer. We're curious.)

## SECTION 7

### Referral (Optional)

7.1 Did someone refer you? If so, who?

7.2 Is there someone in the xCelero/Hansa network who can vouch for you?

## SECTION 8

### Anything Else

8.1 Anything else we should know?

(A link, a video, a drawing, a recording, a github repo, a farm, a fix. Whatever tells us who you are when the plan fails.)
